

StudioAF™ Room Kit

Our **StudioAF™ Room Kit** provides a cost-effective treatment solution for most mid-sized rooms. Built from our FulFill™ Acoustical Panels and FulFill™ Corner Traps, the room kit tames mid and high-frequency reflections and controls low-frequency energy.

We stock the kits in three (3) fabric choices from the Guilford of Maine Anchorage series: Graphite, Asteroid, and Birch.

For larger rooms, customize your kit with additional FulFill Acoustical Panel 3-Packs, FulFill Corner Trap 2-Packs, or our patented Flex-48™ Adaptive Treatment System.

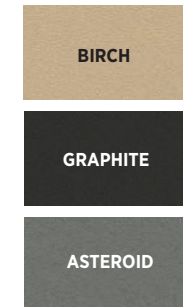

All components have a Class A flammability rating per ASTM E84.

StudioAF Room Kit in Graphite

(3) FulFill Acoustical Panel 3-Packs and (1) Fulfill Corner Trap 2-Pack (includes wall and corner mounting hardware)
