## Introduction

As of August 2021, all editions of Dante Domain Manager have the flexibility to scale, either more nodes, available in packs of 20, 50 and 100 nodes, or features that have previously only be available in the Platinum edition

We have also doubled the number of nodes in Silver and Gold DDM, to 20 and 100 respectively. New customers will receive these automatically, whilst existing customers will be upgraded if they have a current support and maintenance agreement.

For those that don't currently have a live support agreement, they are still able to claim the additional nodes if they renew their support & maintenance (S&M). For Platinum customers, an hour of free consultation with Audinate will be provided upon renewal.

If a customer's S&M has lapsed and they now wish to purchase S&M, they must pay for the period that they were not entitled to S&M. But where the lapsed period is more than 12 months, the customer will not be required to pay more than 12 months back pay.

Product Capacity – from July 2021

Items	No. of Domains	No. of Nodes
DDM Silver Edition	2	20
DDM Gold Edition	10	100
DDM Platinum Edition	50	250
