

CONFIDENTIAL JERICOH PRICE SHEET

6.21.2019
VERSION 1.0

CONFIDENTIAL JERICHO DEALER PRICE LIST

Pricing and specifications are subject to change without notice. Possession of this price list does not equate to authorized dealer status. Authorized dealer status will only be granted after Jericho certification has been awarded and the appropriate credit information has been filed and approved by Danley Sound Labs. This includes examining the prospective dealer's credit history as well as the prospective dealer's ability to positively impact the overall market strategies for a given region of the market(s). For more information on the Jericho certification process contact Danley Sound Labs or your Danley Regional Manager.

Ordering Suffix Codes:

Standard: -W (white) -B (black)

Weatherized (-AT versions): provided in -G (Grey)

Note: "AT" must be added to model number after color choice: Example: J1-94-GAT (J1-94 - Grey - Weatherized)

Custom: -C (custom color)

Note: Include Sherwin Williams code on PO for custom colors.

Weatherized Products -AT

Orders must detail specific version of this box and what is needed for wiring (length, etc). "AT" (Aqua Tight) – Full fiberglass/epoxy finish for maximum moisture resistance. Includes (2) fiberglass layers, inside and outside the cabinet, a special polyurea coat bonded to the fiberglass exterior & (2) topcoat layers of UV resistant color stabilizer. This also includes powder coated stainless steel grilles, an acoustically transparent moisture barrier is attached to the grill, sealed waterproof cable leads (20' length standard) and full caulking of all external joints (except for the "weep" opening at the bottom of the grill). Driver cones are weatherproofed and, a weatherizing sealant is applied to the input plate, handles, and other cabinet fixtures.

General

Jericho Series loudspeakers utilize Neutrik NL8 connectors.

Loudspeakers rigging points utilize 3/8"-16 hardware. Outer flyware (OFW) may be required.

All Jericho orders require 50% deposit. Manufacturing times will vary dependent on the individual project, please call for details. Commissioning by Danley personnel, with associates fees, may be required on certain projects, depending upon the complexity as well as other factors. Please contact your local representative or Danley Regional Manager to confirm if this applies to your project before quoting Jericho Series products. Thank you.

JERICO JI-94

JI-94

Nominal Coverage.....90°H x 40° V [asymmetrical]
 Frequency Response.....47Hz - 18kHz [-3dB]
 Components.....LF: 6x18", 6x6"MF, 3x1.4"HF
 SPL.....148dB Cont.....151dB Peak
 Dimensions.....60" tall x 45" wide x 28" deep
 Weight.....720 lbs
 Amplification.....1 x DNA-20K4 Pro
