FREE DESIGN SERVICE

We go to great lengths to understand your needs and the objectives of the project. Our experienced design department will engineer your console to be ergonomically correct and to support the associated electronics and equipment. Once the design is complete, we will provide you with a complete specification package ready for presentation.

FREE ON-SITE CONSULATION

We understand that every installation is unique and we can gather valuable information by visiting the actual site. We are committed to getting it right the first time and, at no charge, we will travel to your location to measure and survey as well as consult with the appropriate parties.

WELS4 - FREE DESIGN SOFTWARE

WELS is a Winsted-exclusive software tool that makes console design and room layout fast, easy, accurate and fun! This interactive, user-friendly, 3D program lets you use Winsted components to quickly design systems that meet your needs. WELS is easy to use - and requires no additional design/CAD software to operate.

FREE PROJECT SUPPORT

Winsted is a true project partner and we pride ourselves on going above and beyond. What can we do to help you win the job? We can provide Building Information Modeling files (BIM) for Revit®, full CAD drawings in multiple views, photo-quality color renderings of the console design and even animated "walk-through" videos of the proposed installation.
